ROYAL
PURPLE
CALF MEAL

THE HUB

GROUND
CHARCOAL
for Poultry

ROBIN HOOD FLOUR

Looks like good buying.

Bran & Shorts. Car just arrived. Feed is scarce. Special 5-sac lots

We can still handle a few more sacks

GOOD SOUND POTATOES.

Poultry Raisers. Poultry Raising is profitable, but it can be made more so with attention. We can help you. We recommend Baby Chick Feed, Poultry Specific, Lice Killer, Roup Cure, Ground Charcoal, Chickadee Food (this contains vitamins to give baby chicks and turkeys the early start.) Per tin only 75c.

Something new. Minute Tapioca. Delightful tasty pudding in 15 minutes. Try a package. Two for 35c.

We can ship Poultry for you any time. Crates on hand. Let us have your eggs, too.

J. R. Miller

Town Celebrates.

JUBILEE TO BE OBSERVED IN DIDSBURY—BIG PROGRAM.

The committee in Didsbury having charge of the arrangements for celebrating Canada's Jubilee are fully resolved to make it a red-letter day in every respect. The program already outlined is an ambitious one, including, as it does, a big procession, sports of all kinds, patriotic addresses, and all the other incidentals calculated to interest a big crowd throughout the day.

The procession will start off at one o'clock, and included in this there will be several floats from the country schools.

A full list of events can be seen on the posters.

Exhibition On the Way

Enquiries are already being made regarding exhibits at this year's exhibition on August 3rd, and from the fact of these being made thus early the officials are led to believe that interest of exhibitors is getting quite keen. Sufficient to say, this interest is much appreciated, and is regarded as very encouraging.

Dan Dippel and D. Irwin were observed on Tuesday surveying the bandstand in the C.P.R. park and wondering how they were going to remove it to the exhibition grounds. They eventually decided to enlist the aid of some of the farmers living in the vicinity of town, and with their help take the structure away. The date has not yet been fixed, but the Agricultural Society's president thinks a S.O.S. will go out in a few days.

The Didsbury Agricultural Society announce that arrangements are now being made to put the track at the exhibition grounds in good shape. It will be graded and various other improvements effected in order that its condition may be satisfactory to all. Meanwhile, the directors of the Society venture to hope that motorists will abstain as far as possible from cutting into the track especially after a rain.

Bergen-Niche Valley.

Mr. Walter Davidson and family from Calgary were visiting J. J. Davidson's recently.

Mr. J. J. Davidson has bought the old Mjolsness place at Bergen. He may start a store and creamery there.

Martin Arneson trapped another large black bear between ranges six and seven. It had a beautiful hide that would make a great rug.

Mr. Bob Stevens has extended the West End Boulevard nearer Niche valley.

Seeding is not done yet on account of the wet weather.

Dave Allen and wife were visiting near Elkton.

Ross Els and wife (Goodwin Halvorson) are visiting Mr. Ernie Halvorson. Ross lives near Huxley when he is at home.

John Hany is shipping cream to Didsbury. It seems to pay, too.

Mr. Godhe, sr. has been visiting Hale and Wayne at Stevens' saw mill.

The weather this week has been the finest ever. Real home-summer June days.

Ben Lutkehans is taking a trip to Peace River country with a view to locating there. I'm taking a trip too, but it is for seed oats.

Grace Gamble is staying a few days with Mrs. John Frost of Hartmann.

Mothers - in - Gingham FLOUR QUAKER FLOUR.

Milled by the makers of Quick Quaker Oats, Quaker Corn Flakes, etc. Guaranteed highest grade. Milled from the best wheat grown in the Peace River district.

"Mothers - in - Gingham" is sacked in gingham of good quality, which can be used for making aprons, etc.

Ask to See this Good Flour.

Satisfaction Guaranteed.

WORLD HAPPENINGS BRIEFLY TOLD

Slavery has almost ceased in Burma, the Governor has notified the Viceroy of India.

The United States legation will establish offices in the Metropolitan Building in the heart of Ottawa.

Captain Montague White-Fraser, 73, veteran of the South African War, and former member of the R.N.W.M.P., is dead at Vancouver.

Finally revised statistics on the Canadian automobile industry show that the number of motor cars produced during 1926 was 204,727, an increase of 33 per cent.

Hon. Judge Jas. Flynn, former Premier of the Province of Quebec, and pulse judge of the Court of King's Bench, of the Province of Quebec, is dead, after an illness of several weeks.

By September 1 the Independent Biscuit Co., Ltd., will have a factory in operation in Calgary, employing a hundred persons, it is announced. The company is capitalized at \$250,000 and will operate under a federal charter.

D. R. Poole, former secretary of the Manitoba Boys' Work board, has accepted the secretaryship of the National Boys' Work board, which represents the churches and the Y.M.C.A. in co-operative boys' work throughout Canada.

Dr. Abraham Zingher, noted bacteriologist, who helped perfect the Schick test for diphtheria, was asphyxiated when he dozed in his laboratory at New York, while conducting research into the Dick test for scarlet fever.

Canada will be represented at Geneva on the question of naval disarmament by Hon. Ernest Lapointe, minister of justice, and W. A. Riddell. Mr. Lapointe is returning by way of the Suez route from Australia where he took part in the official opening of the new capital at Canberra.

The Department of Agriculture has removed the embargo on cattle entering Canada from England. The embargo was imposed on account of the foot and mouth disease. It was originally applicable to the whole of Great Britain, and was removed from Scottish cattle only about a month ago.

Origin of "Humbug"

"Humbug" originated when James H. of England coined base metal in his fight for the crown. The Irish called it Uim Bog (worthless money), which became first Oombug and then Humbug.

Diarrhoea Summer Complaint HE ALWAYS USES

Mr. T. F. McGregor, McLennan, Alta., writes:—"Over forty years ago my mother used to give me Dr. Fowler's Extract of Wild Strawberry for diarrhoea and summer complaint. All through the years since then when troubled with an excessive looseness of the bowels I have been accustomed to take a few doses of the same old, reliable remedy and it always seems to have the desired effect, no matter what the cause."

Don't Accept a Substitute

This valuable preparation has been on the market for the past 80 years; put out only by The T. Milburn Co., Limited, Toronto, Ont.

W. N. U. 1685

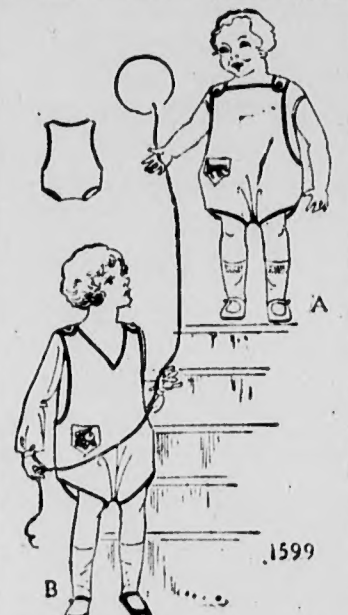

R. W. BALL

Formerly general superintendent in charge of eastern lines of the Canadian National Telegraphs, has been appointed general superintendent of western lines, with headquarters at Winnipeg. Mr. Ball will have jurisdiction over all territory west of Port Arthur to the Pacific Coast.

Plans for Russian Aviators

Five long flights are being planned for this year by the Society for the Development of Aviation and Chemical Industry in Russia. The first three will be within Russian territory, but a Soviet plane will attempt a flight to Stockholm, Copenhagen, Berlin, Paris, Prague, Vienna and back to Moscow. The fifth flight will be from Moscow to the Far East.

Winnipeg Newspaper Union

Any boy or girl will find enjoyment in wearing the attractive one-piece coverall shown here. The back buttons onto the front at the shoulders and the neck may be either square or V-shaped. Contrasting material is used to bind the edges and the patch-pocket is embroidered in an attractive design. No. 1599 is in sizes 1, 2 and 4 years. Size 2 requires 1 1/2 yards 27 or 32-inch material, and 3/4 yard 27-inch contrasting for binding. Price 20 cents the pattern.

The Transfer Design is No. 1168. Price 25 cents the pattern.

Home sewing brings nice clothes within the reach of all, and to follow the mode is delightful when it can be done so easily and economically by following the styles pictured in our new Fashion Book. A chart accompanying each pattern shows the material as it appears when cut out. Every detail is explained so that the inexperienced sewer can make without difficulty an attractive dress. Price of the book 10 cents the copy.

"The wonder metal of the age" is a fitting term for Aluminum. Its lightness, brightness, flexibility, freedom from rust, and many other good qualities, make it adaptable to a multitude of uses, a chief one being as a container par excellence for good tea—Red Rose Tea is packed only in this modern metal package.

Source of Chinese Munition Supply

Great Britain is Only Country Not Sharing in Business

Russia has hitherto been given the credit or discredit of being the chief source whence the warring Chinese factions have obtained their supplies of arms and other materials of war. Russians have been frequently reported to be serving in both the Northern and Southern armies, and the chief adviser of the Cantonese government during its drive to the Yangtze Valley was Michael Borodin, the chief agent in China of the Soviet government, believed to be still in Hankow, the seat of that faction of the Cantonese most deeply imbued with the Communist ideas. Anxious to get fresh light on the origins of the Chinese arms supply, the contributor to the Nation and New Atheneum, of London, England, who uses the pen-name of Kappa, conducted a private investigation of his own, uncovering a number of interesting facts. He found that while the Russians had contributed both armaments and men to both sides, some other nations had also been active in a similar way, notably Germany, that country sending to China during 1925 armaments to the value of nearly \$3,500,000. Some surprise would be natural at finding Norway in the traffic to the extent of \$1,250,000, with Italy next, furnishing munitions worth \$1,000,000. United States manufacturers equipped the arsenal of the Cantonese, and France provided military airplanes. Great Britain, indeed, was conspicuous inasmuch as it was the only country that did not share in the business.

European residents in China who were compelled to fly before the advancing Cantonese probably did not realize that the Nationalist troops were armed with Western weapons. The situation, as the Brockville Recorder and Times sees it, recalls its kinship to that existing during the war when the Canadian troops became the target of shells into whose construction nickel mined in Canada entered. That Great Britain has refrained from assisting the arming of the Chinese redounds greatly to her credit. It is evident enough that uprisings and internal warfare will recur in China as long as traffic in arms is permitted to proceed without interference from the great powers. It can scarcely be satisfactory to the people of the United States to learn that the very arms used at Nanking, where one American, at least, lost his life, may have been supplied by a United States munitions firm. The practical solution of the difficulty apparently lies in reaching an agreement limiting the traffic in arms and signing and ratifying the Arms Traffic Convention to that end. — St. Thomas Times-Journal.

A safe and sure medicine for a child troubled with worms is Mother Graves' Worm Exterminator.

Trucked Hogs Grade Well

With the extension of good highways from the marketing centres into the country the number of hogs delivered to the stockyards and packing houses by truck is constantly increasing. Not only is the delivery accomplished quickly, and therefore in good condition, but as was pointed out at a number of swine meetings in Eastern Ontario by Mr. Eric D. McGreer, the sheep and swine promoter of the Live Stock Branch at Kingston, it leads to rapid improvement in the grades because the farmer can see for himself the type of hog for which the highest price is paid. This explains why the percentage of sales in hogs trucked to market is usually higher than where they are shipped by rail.

Tom—"How can that little birthday gift for your wife be a surprise if she told you what she wanted?"

Henry—"I'm not going to give it to her."

How easy it is to tell others that it's no use to worry.

SUNDAY SCHOOL LESSON

JUNE 19

PETER TEACHES GOOD CITIZENSHIP

Golden Text: "Love worketh no ill to his neighbor."—Romans 13:10.
Lesson: 1 Peter 2:11-17; 4:1-5.
Devotional Reading: Psalm 146:5-10.

Explanations and Comments

1. The Seemly Life, 2:11, 12.—"Beloved, I beseech you as sojourners and pilgrims"—thus Peter addresses his readers. Peter is here speaking metaphorically; he wishes them to realize that life is a journey, not a goal, and that the attainment of character which is eternal should be their aim; they were living, as it were, in exile on earth, heaven was their true home.

"The Christian looks for a life eternal. In comparison thereof the best things of this time are of little account. It is but as a lodging for a brief night, and at dawn the traveller sets forward for his true home."

Since they had but a short time to stay on earth, they must live their brief life nobly. "I beseech you to abstain from all fleshly lusts, which war against the soul," are Peter's words.

"Do not let us so narrow its interpretations that the majority of us escape the grip of the apostle's injunction. Let us attribute a comprehensive content to the unwelcome word 'lust.' 'Lust' includes the entire army of unclean forces which are antagonistic to the exalted realm of the spirit. It includes not only the carnal desire, but the jealous eye and the itching palm. Fleshly lust is everything in life which steams the windows of the spirit. Fleshly lust is therefore inclusive of envy, jealousy, avarice, insatiable selfishness, and inordinate ambition."—J. H. Jowett.

"Having your behavior seemly among the Gentiles; that, wherein they speak against you as evil-doers, they may by your good works, which they behold, glorify God in the day of visitation." How like an echo from the Sermon on the Mount this seems! "Let your light shine before men; that they may see your good work, and glorify your Father who is in heaven." "So Christ's pilgrim leaves a track of light behind him; he is a witness. The phrase 'in the day of visitation' suggests a fear in the apostle's heart lest the response to this witness might not be immediate; it might have to abide Christ's own time. The hour of visitation which will also be the hour of illumination will come, and then all the quiet witness will tell—the holy walk, the patient endurance, the lofty testimony, the life that is fair to see."—J. M. E. Ross.

Woman Radio Expert

Has Worked Up Well Paying Business in Brooklyn, N.Y.

Three years ago Miss Harriette F. Quick, of Brooklyn, N.Y., bought a radio set. It intrigued her. She took it apart to see what made it work, and finding that it was not neatly made, she rebuilt it to suit herself. Later Miss Quick showed the rebuilt set to some of her friends and they liked it so well they ordered sets like it. That started her in business and she set up a work bench and started filling orders. Today she does nothing else but build radio sets, except when she is erecting aerials or trouble shooting. She is Brooklyn's only woman radio engineer and one of the few feminine radio experts in the world.

Many people are almost crippled with corns. But it is needless suffering which can be speedily ended with Holloway's Corn Remover.

Employment at High Point

Returns Show That Employment is Now at Highest Peak Since 1920

Reports up to May 1 of this year from 5,948 firms showed that employment in Canada was at the highest point it has been since the Canadian Government Bureau of Statistics began to keep employment records in 1920.

The payrolls of the 5,948 firms reporting on May 1, showed that there were 830,859 persons employed. Manufacturing, construction and transportation recorded the most pronounced improvement, but large gains were also noted in trade, services and communication.

The official returns on employment in Canada do not include farmers. In the months of April and May there is always a considerable demand for farm labor to help in the seeding, particularly so in Western Canada, where millions of acres are sown to wheat and other grain crops.

Keep both eyes open on an enemy who wants to do you a favor.

Why Firestone Tires Are Better

One of the outstanding developments by Firestone Engineers is the Gum-Dipping process which impregnates and insulates every fibre of every cord with rubber—adding strength to the cords and reducing internal friction and heat so destructive to tire life.

The Firestone Dealer in your locality will gladly explain to you the extra value of Gum-Dipping. He is prepared to demonstrate how the cords of the carcass are saturated in a rubber which makes motoring more economical with added comfort and safety.

Complete Restoration of Rheims Cathedral

Historic Building Destroyed by German Fire is Again Open for Service

For thirteen long years the bells of the Cathedral of Rheims remained silent. Thirteen years have elapsed since the last service was held in the building which in the eyes of the whole civilized world, became the symbol of France's sufferings, trials, renaissance and regeneration.

Three dates stand out tragically marked in the cathedral's history. On September 4, 1914, the first German shell crashed through the north transept. On September 6, 1914, Mass was celebrated for the last time beneath the noble arches, under the shadows of which Joan of Arc five centuries ago had the Dauphin crowned King of France. On September 19, 1914, the cathedral was destroyed by the fire and the roof and bells crashed in, more than 400 tons of molten lead streaming down into the blazing furnace.

The long work of restoration is now terminated and the keys of the completed building have been handed over to Cardinal Luçon, Archbishop of Rheims.

Issuing Jubilee Stamps

Postmaster-General Veniot is issuing a special series of postage stamps to commemorate the Diamond Jubilee of Confederation. They will be larger than the normal issue, and will depict the development of the Dominion, the expansion of its transportation systems and various phases of the nation's industries and resources. It is stated the stamps will bring joy not only to philatelists, but to the public generally.

Australian wildernesses abound in subterranean rivers which may be tapped by artesian wells. Queensland now raises 600 million gallons per day. The artesian belt of Australia is larger than all Argentina.

CHAPTER I.—Continued

"Are they all bad, Aunt Lili?" asked Helmi tearfully.

A long spell of coughing delayed the answer.

"They don't want to settle down in their home like we do; they don't like kids and a nice quiet life—though they will tell you they do. You are pretty Helmi; that's why I am afraid. I don't want Mike to see you if it can be helped. He'll want you just like he wanted me. Kate, the cook, will keep you safe. All the girls are my friends. . . . Remember what Aunt Lili said, Helmi."

Having received the extension of time she had asked for, and having delivered her message, Aunt Lili gave up the fight without a struggle. The silence of the room was broken by the stormy sobs of big Kate, the cook, and the two upstairs girls. She had said goodbye to all the girls in the house the night before. Her last and tenderest words were for her young niece.

"If you could only talk English I would stay," she had said. "It is a good country, but it's too hard for a pretty girl who has no English."

"I can learn, dear Auntie," said Helmi, kissing the thin white hand, "like you did, Aunt Lili," but Aunt Lili did not hear.

Mike Laine, the proprietor of the "Farmer's Home," learned in some way of his niece's arrival and asked to see her. He pinched her arm affectionately the day of the funeral and told her to call him "Mike" and cut the "Uncle" stuff. His burling eyes made her shudder.

One of the girls talked Finnish, and in big Kate's room off the kitchen, a council was held. Helmi was firm in her determination to stay. Big Kate, who had one hundred dollars in trust for her, urged her to go home; the Finnish girl faithfully interpreting both sides of the argument.

For three days the discussion raged, Helmi during the intervals having washed her clothes and learned their English names. She also did her share of dishwashing and potato peeling. Her skill in these matters won the heart of the cook, who on the

third day wrote a letter to her sister in Winnipeg telling her to meet the train from Saint Paul on a certain day and look out for a "Finnish" girl with red hair and a green Tam o'shanter.

The day that Helmi left, Big Kate made the explanation to the bereaved uncle. Being the cook, she was not afraid to talk back to any one, and besides, she had certain information which quieted Mr. Laine's outburst of indignation. Miss Katherine Kenny was not so large that she could not kneel at the door and apply her eye to a keyhole in such a manner that the whole room and its activities were revealed. Mr. Laine could not reply to Miss Kenny's accusations and threats of exposure by hitting her over the head with a chair. Such crude methods of dealing with women can only be safely used inside the hallowed precincts of matrimony. He contented himself by telling the cook he didn't care what she had done with the girl; he had "had enough of these bad tempered Finns, anyway."

With this Mr. Laine shrugged his shoulders and went back to the bar. He would probably get the girl yet. She would be writing back for money and claiming relationship with him. A girl like that, right off the farm in Finland, with a pretty face and no English—Some fellow would be too smart for her.

On the Soo line, in the day coach, with her face against the glass, a box of sandwiches beside her, money in her purse and five ten-dollar bills sewed securely into the pocket of her petticoat, sat Helmi, watching the landscape slip past. It was a brilliant day in March; wild geese were flying north in V-shaped formation; cattle with blotchy coats were roaming the fields; black channels of water flicked their way through snow; fence-tops were showing like rows of fancy stitching around the fields. At one station, where the train waited to change engines, the boys and girls just out of school had come down to the station. Helmi was glad to see one girl wearing a cap much like her own—it gave her a delicious thrill of acquaintance. A boy and girl walked away together—the boy carrying his companion's books and skates as well as his own. He leaned towards her as he spoke.

Helmi's eyes were wistful as she watched. "They are not all bad," she said in her own tongue.

The train bore swiftly on. Eagerly Helmi watched the racing, swinging, sliding fields. The sun went down in a crimson mist, shooting streamers into the sky, so warm and glowing that it seemed to Helmi like a well-coming fire, where she would find friends, home and happiness. Even after the sunset had faded and faded into the gray of night she knew that it was still burning and glowing and beckoning her further on.

And so came Helmi, young, strong and unafraid.

CHAPTER II.

Margaret Kenny was wiping her hands on the blue-colored roller towel which hung behind the pantry door, preparatory to the opening of her sister's letter, which lay on the drain board. Not for a moment did the elder Miss Kenny take her eyes off the letter.

"It's from Kate in the States," she said, "and so it's trouble. She's adopted a child, or killed a man for beatin' his horse, or something. She never writes only when she is in howl of some kind. Gosh! I often wish she was in jail, where I'd be shut of her, bad cess to her impudence. I told her the time she sent me the dog that I was done with her. Well, I may as well open it."

As Miss Kenny read the letter, following each line with a red forefinger, consternation settled upon her like a tent.

"What the devil" she began, "Finn girl, red haired and smart . . . had to get her away, it was not safe for her here . . . I remain your loving sister, Kate."

"Oh! So she remains my lovin' sister! Well, I am no lovin' sister of hers. She always finds the trouble,—she can place it without a willow wand, can Kate,—and then hands it on to me. Well, here's a pretty how-do-you-do, a Finn girl, no English, comin' on the train. 'Please Maggie, find her a place. Easiest thing in the world, Maggie sorra a thing you have to do; anyway' . . ."

"See here, Anna Millander, you should be the one to look out for a Finn girl. Listen to this."

The head dining-room girl came languidly into the kitchen. "What's the row?"—she asked.

Maggie read the letter.

"She'll come in at five tomorrow, just when I'm up to me eyes in the dinner. Now, you go down—you can speak to her and be back in time to carry the dinner, too."

Anna's head was flung back. "I think I see myself—I didn't send for this girl—she's nothing to me—merely another wage slave coming to take a job. There's too many girls now for the jobs."

Maggie Kenny's face was screwed up in astonishment. "My God," she cried, "is that the brotherhood you learn at your meetin's?"

"We're opposed to immigration," said Anna firmly, "the Government dumps in people here, just to keep wages down. It's the capitalists again. You haven't sense enough to see it."

"For all the brazen, selfish jumps I ever saw it's you Anna. When you came here two years ago all you could say was 'Yiss.' Who showed you how to make a bed and comb your hair and garter up your stockings. And now, by Gosh—you wouldn't meet another girl at the station, and her from your own country and all. Did you never hear of the Golden Rule, do as you would be done by?"

"Old stuff, Maggie," scoffed Anna, "no one believes that now. The idle rich sling that stuff around to lull us to sleep, that's all. It may catch you and your bread, but not us. We've gone a long way past that."

"What the devil do you want, Anna Millander. Haven't you a good job, good meals, good bed, better clothes than you ever had?—What ails you?"

"We have nothing to lose but our chains," said Anna loftily. "How long could old Spencer run this joint without us? The world belongs to the workers, but we haven't the backbone to claim it. Softies like you keep us back with your Golden Rule, and the Spencers get the profits. There's only two classes, those who work and those who live on other's work. Some people earn and some spend. If the workers would all organize we could dictate terms. Some day we'll do it. Then a new day will come."

(To Be Continued.)

Iodine for Scarlet Fever

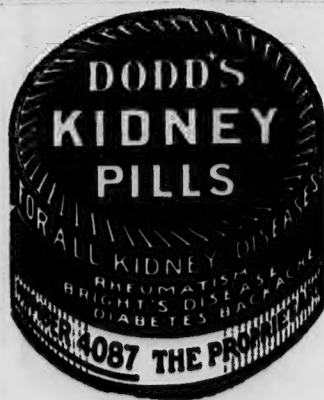

Iodine, injected hypodermically, not only will cure scarlet fever, but will totally kill its germs, according to a doctor practising in the Abruzzi Mountains in Italy. He said he tried it during a recent epidemic and stamped out the scourge in a few days. The iodine was injected in quantities proportionate with the age of the patient.

"Grandpa's a hundred and three years old today, doctor."

"Isn't that splendid! And does he read or do anything?"

"No, 'e don't seem to have no ambition for nothin'."—Pears' Weekly.

Two of life's urgent requisites are good health and a little more money.

Invented Good-Paying Job

Englishman Tramps Around Country Typing Letters for Farmers

On tramp with a typewriter, doing letters for people on lonely farms and in out-of-the-way villages, is a job that an ex-service man has invented for himself in order to earn a living.

He is Horace Woodford, a native of Otley, England, who was a clerk at Hull before joining the army, and afterwards was in turn, hop-picker, ship's stoker and fish hawker.

"I have been making a decent living for the past two years tramping round the country from the early spring to the late autumn," he told an interviewer recently.

"I type letters for farmers and their servants, and when I strike any big public works I always find that the men—more especially the navvies—are glad to have the opportunity of having a letter typed for them."

"I have tramped all over England, Ireland and Wales, and now I am going to try Scotland. My charge for letters, long or short, is 12 cents. I must have typed thousands, including love letters."

"I never knew there was so much romance on the land. To hear some stolid looking farmer folk telling their love story in the rough and ready language, was a surprise to me."

"The girls always want a line or two of poetry, and as I have an odd book of verse I am able to oblige them."

An Unusual Request

Toronto Man Left Something Better Than money to Children

A Toronto real estate dealer, who died recently, didn't leave his family very much money, but he bequeathed to his children some advice which, if acted upon, will prove to be much more valuable than gold or silver. In his last will and testament he declared that his fervent prayer was that all his "darling children will embrace every opportunity to do good, to be kind and loving to all the human family."

If the beneficiaries of this advice ponder over it, and put it into daily practice, they will lay up for themselves riches, both in this life and in the life to come. They will be rich in the affection and regard of their fellowship. Like begets like. If men manifest kindness and love toward the human family, they will receive the same in return.

Money is not everything. As Tennyson has so well put it, "Kind hearts are more than coronets." So fathers who have little or no money to leave to their children may easily do a lot worse than this Toronto father who sought to bequeath to his offspring the spirit of kindness and of brotherly love.

Little Helps For This Week

Blessed are the pure in heart, for they shall see God.—Matthew v. 8.

The pure in heart God's face shall see.

And does not this include the whole ecstatic scale of promised bliss?

Can souls which His dear presence gain.

More joy attain?

Certainly as the open eye drinks in the light, do the pure in heart see God. And he that lives truly, feels Him as a presence not to be put by.

—Theodore Parker.

The pure in heart see God in everything, and see Him everywhere; and they are supremely blessed.

—John G. Holland.

Back-to-the-Land

A member of Parliament was a passenger on a steamship which was slowly sinking. The passengers were climbing into the lifeboats.

"Sir," suggested a reporter on board the ill-fated vessel, "here's a chance for some publicity. If you cared—"

"You may quote me as saying," replied the statesman, "that I am heartily in favor of a back-to-the-land movement."

Barnes—"I make my son practice four hours each day."

Rod—"Heaven, man, you'll make him hate music so much that he will give it up."

Barnes—"Fine. That's just what I want."

Minard's Liniment is reliable.

Growth of Winnipeg

Is Now the Third Largest City in Canada

Winnipeg is still the third largest city in Canada, according to figures furnished by the Board of Trade. Its population, including suburbs, is 294,646, as given in Henderson's Directory. Montreal and Toronto are, of course, well ahead of this figure, the former at a million and the latter at three-quarters. City Hall records give the population of Winnipeg proper at 198,932, or a gain of 7,000 over a year ago. Vancouver comes next with about 160,000.

THAT BABY OF YOURS

Keep Him Well With the Aid of Baby's Own Tablets

No matter how strong and rosy your child may be he requires a laxative sometimes so that the stomach may be kept sweet and the system clean.

Formerly the laxative medicines given to children were disagreeable ones—castor oil, senna tea, powders and so on. But now Baby's Own Tablets, easily administered and pleasant to take, have superseded these. The children like Baby's Own Tablets.

Not only as a laxative but in many other ways these Tablets are an ideal remedy for little ones. They quickly reduce feverishness, relieve indigestion, colic and vomiting, prevent constipation, check diarrhoea, allay teething pains and promote healthful, natural sleep.

You can get Baby's Own Tablets at any dealer in medicine or at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

One thing about the greedy man, and he who begs along the street; the former always eats too long—the latter always longs to eat!

Sores Heal Quickly.—Have you a persistent sore that refuses to heal? Then, try Dr. Thomas' Electric Oil in the dressing. It will stop sloughing, carry away the proud flesh, draw out the pus and prepare a clean way for the new skin. It is a recognized healer among oils and numbers of people can certify that it healed where properly applied.

Dad—"I promised you a bicycle if you passed the examination, but you failed. What have you been doing?"

Son—"Learning to ride a bicycle."

Ease sunburn with Minard's Liniment.

A man doesn't fully realize the blindness of justice until he gets the short end of a lawsuit.

It keeps in the Opened Tin

Never worry about leaving Eagle Brand in the opened tin. It keeps perfectly, pure and sweet, if kept covered in a cool place.

Borden's EAGLE BRAND

OPERATION LEFT HER VERY WEAK

Letter Tells of Wonderful Relief After Taking Lydia E. Pinkham's Vegetable Compound

Coniston, Ontario.—"After a severe operation and a three weeks' stay in a hospital I returned home so weak that I was unable to move a chair. For four months I was almost frantic with pains and suffering until I thought sure there could not be any help for me. I had very severe pains in my left side and suffered agony every month. One day when I was not able to get up my mother begged me to try your medicine. My husband got me a bottle of Vegetable Compound at once and I took it. I started a second bottle, and to my surprise and joy the pains in my side left me completely and I am able to do all my work without help. I am a farmer's wife, so you see I can't be idle long. In all, I have taken six bottles of Lydia E. Pinkham's Vegetable Compound, five boxes of the Compound Tablets, two bottles of Lydia E. Pinkham's Blood Medicine, and have also used the Sensitive Wash."—Mrs. L. LAJEUNESSE, Box 103, Coniston, Ontario.

Didsbury Pioneer

DIDSBURY - ALBERTA
Published every Thursday.

LOCAL AND GENERAL

The Women's Guild of St. Cyprian's Church will hold a sale of work and home-cooking, on June 18th, at the Opera House. Afternoon tea and ice-cream will also be served.

Before putting on that insurance see A. H. Clapham of the Excelsior Life Insurance Co.

Confederation Jubilee Celebration will be held at Rugby on July 1st. There will be a picnic lunch and patriotic program and sports. Prizes will be given for best decorated car, buggy, saddle horse, and historical figure.

Afternoon tea served yesterday at the home of Mrs. George Smith by the O.E.S. was generously patronized, the attendance numbering between 40 and 50. The decorations consisted of some lovely flowers. Assistance in receiving and at the tables was rendered by Mrs. Leadbetter, Mrs. Geo. Liesemer, Mrs. Irene Studer, Mrs. W. J. Hillyard, Mrs. Rennie Mrs. J. R. Miller, and Mrs. W. Derby.

Mr. and Mrs. Cowitz, Mrs. Leadbetter and daughter Milly, and Mrs. J. R. Miller made up a motoring party to Calgary today.

Divine service will be held at St. Cyprian's next Sunday at 11 a.m.

The baseball game between Didsbury and Bowden, scheduled for last Tuesday night, had to be postponed on account of rain.

A dance will be given in Thurlow's new barn, under the auspices of the Didsbury Women's Institute, on June 24th. Everybody welcome.

Kindrick and Good shipped a car of horses to Quebec on Saturday.

Mr. and Mrs. F. J. Slight, Mr. and Mrs. R. Fuller and Max Henry passed through Didsbury on Friday last, from Camrose en route to Banff. Mr. Slight may be remembered by some here yet. He came to Didsbury from the old country about seventeen years ago, and whilst here was employed for a short time at the office of the Pioneer. He is now editor and proprietor of the newspaper at Camrose.

Two million medals for school children to commemorate Canada's Confederation Jubilee are now being struck at the government mint at Ottawa. It is intended to give one to each school child in Canada. The medal contains on one side a picture of Queen Victoria as she was in 1867 and one of King George as he is at present. Confederation is printed on the top and Canada on the bottom; 1867 is printed opposite Queen Victoria, and 1927 opposite King George. On the reverse side is a shield containing the Canadian coat of arms, surrounded by maple leaves. On the same side is the motto for the coat of arms, "A mari usque ad mare."

Business being rather unsatisfactory, one of our Scottish tradesmen, to draw custom, advertised that with every purchase he would give a cigar-lighter and a coat-hanger. Next morning many shoppers arrived, each anxious to obtain a gift from a Scotsman. Each purchaser received a match and a nail.

A young country girl was evidently taking her first ride on a train. The conductor came

through the car yelling, "Tickets, please," and after some embarrassment she handed him her ticket.

Soon after a train boy came into her car crying, "Chewing Gum." The country maid turned to her companion and said "Goodness, do I have to give that up, too?"

The annual picnic and stampee will be held at Dog Pound by the U.F.A. on Wednesday, July 20th.

The Alberta Wheat Pool will build a terminal elevator at Vancouver this summer with a capacity of 2,400,000 bushels. This will be the largest terminal on the coast. The cost will be \$2,000,000.

Plans for the structure are now being prepared and a start on the construction will be made in July. The terminal will be completed in time to handle the crop of 1928.

With the completion of this structure the Pool will have control of over five and a quarter million bushels of terminal space on the Pacific coast. Four million bushels of this elevator space will be in Vancouver.

The site for the new elevator was recently acquired in Vancouver Harbour, and is considered to be one of the best elevator sites there.

A letter was received in town on Tuesday from Spokane announcing the death there on the 8th inst. of H. E. Osmond, former proprietor of the Didsbury Pioneer.

E. B. Grange, A. H. Dobson, C. Griffiths and E. Summers were in from the west country on Tuesday.

W. S. Durrer has sold his house in town within the past few days to W. Sharp, who takes possession of this fine residential property the first of the month. Mr. Durrer states that it is his intention now to remodel and convert another piece of property he owns opposite the fire hall into a very commodious bungalow, and with this in

mind he is now drilling a well on the premises. His plans also include an excavation for a basement to run the full length of the building.

Harold Reiber left on Saturday last for Calgary, where he has taken a position as chemist with the firm of Spillers Ltd. The arrangements at first were that he would be sent to Vancouver, but later the company decided to place their laboratory at Calgary.

Mrs. A. C. Fisher is spending a week or two with her sister, Mrs. J. Gilmore at Lethbridge.

The Saskatchewan Farmers' Mutual Insurance Co. has now invaded the Alberta field, and the other day appointed Fisher & Edwards their local agents. Harry Pearson has been appointed provincial inspector of the same company.

SEALED TENDERS.

Didsbury School District No. 652

Sealed Tenders will be received by the undersigned up to Saturday, June 25th, 1927, for the kalsomining of the Public School. Any tender will not necessarily be accepted.

M. B. Clemens,
Sec.-Treas.

MUNICIPAL DISTRICT of MOUNTAIN VIEW No. 310.

NOTICE is hereby given that if all arrears of taxes imposed in 1926, in respect of any parcel of land situated within this Municipality are not paid on or before the first day of July next, such lands will be dealt with under the provisions of the Tax Recovery Act, 1922, with a view to obtaining Certificate of Title in the name of the Municipality in respect of such parcel.

Wheat Pool Purchase 41 Elevators.

The Alberta Wheat Pool will build a terminal elevator, with a capacity of 2,400,000 bushels at Vancouver this summer. This announcement was made in the directors' report given out recently. The cost of the elevator will be \$2,000,000. Construction will be started shortly, and it is expected that the structure will be ready to handle wheat from the 1927 crop.

At present the Alberta pool under lease No. 2 terminal at Vancouver with a capacity of 1,225,000 bushels. With the completion of the new Vancouver terminal the pool will have available at the coast terminal elevator space of more than half a billion bushels.

It was also announced in the director's report that 41 country elevators had been purchased and contracts let for 51. The elevators purchased had been secured from the following companies: United Grain Growers, 24; Terwilliger Grain Co., 8; Pioneer Grain Co., 1; Lake of the Woods Milling Co., 1; Western Canada Flour Mills, 1; Brooks Elevator Co., 1; McLaughlin Elevator Co., 1; Home Grain Co., 1; Liberty Grain Co., 1.

H. W. CHAMBERS

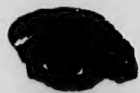

The New Ford.

"Yes, a new Ford is coming, but it will be autumn perhaps before we'll be able to display the new car," said Roger Barrett, local Ford dealer, in discussing the recent brief announcement from the company's head offices at Ford, Ontario.

"It is characteristic of Ford policy not to hurry into the production of a car. Ford experimented for many years before he put his first car on the market, and he experimented for years more before the famous model 'T' was marketed. That the model T could outsell all other cars for nineteen years shows that when he experiments he arrives at some real results. He has been experimenting for years to get something more advanced than the model T. Now that he has it, plans have to be completed to produce it on a quality-quantity basis that will give the public the benefit of Ford economical manufacturing methods. Meanwhile we will take orders for the new car 'sight unseen' and deliveries will be made strictly in order of the time the sale was arranged. We will also continue for the present to sell the model T. It has always been Ford policy to trade in used Ford cars and so the owner of a current model Ford will enjoy a preference when it comes to buying the new car. The Company's faith in this practice is based on the long life and durability of the product which holds its resale value at an incomparably high figure at any period in its life. This policy of trading in used Fords will be more apparent than ever when the new car is placed on the market some time this fall."

No information is yet available respecting the mechanical details of the new car, the dealer said. "The only definite information I have is that the new car will cost more than the present one, as anyone who knows automobile values will tell you. We have the company's word for it that it has speed, style, flexibility and control in traffic. That is just about everything that anyone would ask for, and when you add production methods and traditional adherence to a standard of highest quality you have a wonderful combination."

In the interim we will continue to sell model T cars and to give service on them. They will never be orphan cars, for the company will continue to produce parts for as long as they are in use, and as they are the longest-lived cars on the market that will be for a considerable time. The announcement that the new car will cost more to manufacture than the model T should set at rest the rumors which circulated about a price cut. We know we will have no difficulty in moving out our stock of model T's for we are expecting a time when the demand for Ford cars will be very much greater than the supply."

How Can Women Help Enforce Law..

Continued from last week.)

It seems that when we know that the law is broken, we should report to the officers of the law and insist on them prosecuting to the limit. That is one thing a woman can do.

But in order to know when the law is violated we must acquaint ourselves with the law. If we aspire to take our stand with the law-enforcers, we must get a fair knowledge of the law.

I would suggest studying:

- Laws concerning women.
 - School laws.
 - Liquor laws.
 - Government Control System.
- Anything concerning Temperance laws will produce better law abiding citizens.

By studying these kinds of laws we are preparing ourselves for better citizenship and better understanding what we are voting for. I advocate voting for the clean candidate instead of for the party. When mothers teach their children the ten commandments and practice what they teach, they are helping to enforce the law, also to make better laws because she is putting better men and women into the legislature.

Mothers and school teachers give the child his or her deepest and most lasting impressions. They are moulding their future in their plastic state. A good lesson well taught will never be in vain. Abraham Lincoln gave us the great ideal when he said, "Let reverence for the law be breathed by every mother to the lisping babe that prattles on her lap; let it be taught in the schools; let it be written in primers, spelling books and in almanacs. Let it be preached from the pulpit, proclaimed in legislative halls, and enforced in courts of justice, and in short, let it become the political religion of the nation." This great man didn't mention any special teacher except the mother. "Woman" forming the destinies of the world.

Words fail to express the responsibility of the mother.

The Alberta Prohibition Association has many good resolutions up before the legislature for careful consideration. Women helped to pass these resolutions. If we stop to think, we

"Sign for Safety"

The Second Series of Wheat Pool Contracts

SAFETY because it is a farmer-owned and controlled co-operative Association which markets over fifty per cent of Canada's wheat crop.

SAFETY because it guarantees to the farmers every cent paid by the consumer minus only the minimum costs of marketing.

SAFETY because it increased the farmers income and independence by giving him a voice in the selling of his crop.

SAFETY because it insures the farmer against the losses and uncertainties caused by fluctuating speculative markets.

SAFETY because of low handling costs. The total annual expenses of operating the Alberta Wheat Pool in 1923, 1924, and 1925 was less than one-half a cent per bushel. The total expense of the Central Selling Agency in 1925-26 was one-fifth of a cent per bushel.

SAFETY because the Pool employs experts to handle and sell its grain.

SAFETY because Pool elevators guarantee fair weights grades and dockage and good service.

SAFETY because the Pool merchandises wheat as the demand arises and thus avoids depressing values by offering more than the consumer will take at fair prices.

SAFETY because the sole aim of Pool salesman is to get the true value of wheat for its members.

FISHER & EDWARDS, Lister Agents
DIDSBURY, ALBERTA

will find that we are helping in many ways to make laws, also enforce them. Allow me to give two resolutions: one is petitioning the Federal Government to give to the Alberta Legislature the right to control the manufacture of all intoxicating liquors within the province of Alberta. The other is petitioning the Alberta Government to so amend the Gov. Liquor Control Act setting a limit to all sales. While all the resolutions are good, I believe that these two would make the most noticeable change for the good of all mankind.

Any woman that is a member of the Prohibition Association is helping to put these resolutions through.

If we do not get in too big a hurry and undo all the good that has been done, we will soon find larger avenues open up to us, but we must be qualified to fill the position or our opportunity passes on to someone else that is. Oh! we are helping in so many, many ways. Let us be content in our humble way until we have paved the way for bigger things.

Canada's Diamond Jubilee

Only once in the history of any nation does the opportunity come to its people to celebrate the diamond jubilee of its founding. Canadians will enjoy that opportunity on July 1st next, and it is gratifying to note that the celebration will be well nigh universal from coast to coast. Canadians, no doubt, would have with equal zest and enthusiasm celebrated the fiftieth anniversary of Confederation but for the fact that in 1917 they were engaged in a life and death struggle in which the very existence of Canada was at stake. The victory won through the great sacrifices then made should but add to the gratitude and pride of our people in this year of the Diamond Jubilee.

Children today may have the opportunity of celebrating one hundred years of Confederation, but our adult population will not, and so those who actually witnessed the inauguration of this young nation, and those who have taken part in its earlier development, will no doubt throw themselves wholeheartedly into the ceremonies which will commemorate this historic event.

It is the repeatedly expressed desire of the National Committee created by Parliament to promote this Diamond Jubilee celebration that it should be participated in by all the people, old and young, in small hamlets and rural districts as well as in the larger centres of population. It is the spirit of the ceremonies rather than in their elaborate character that their real significance and value will be found.

The National Committee has, therefore, urged that there be at least one simple little ceremony everywhere at the same hour, and have suggested that, at twelve o'clock noon on July 1st in every community however small, bells should be rung, whistles blown, and the two national anthems "God Save the King" and "O Canada" sung. And again, that at 2:30 o'clock on the afternoon of Sunday, July 3rd, a community service of general Thanksgiving be held. For this latter service the National Committee is preparing a simple programme of exercises suitable for all communities.

These are suggestions which can readily be carried out in all communities, and it is to be hoped that the people of the Dominion will accept the lead of their National Committee and unitedly co-operate with it in giving effect to these suggestions. They need in no way interfere with the larger and more elaborate programmes being arranged in most cities, towns and villages.

It is further suggested that a tree be planted in every community with fitting ceremonies to be hereafter cared for and known as the Diamond Jubilee Confederation Tree. This, too, offers no obstacle on the score of expense to any community. Not only can such a tree be planted in some public place in all urban communities, but there would appear to be no reason why a Confederation Tree should not be given a place of honor in the grounds of every rural school throughout the length and breadth of the Dominion.

As a further marking of Canada's sixtieth birthday anniversary it is proposed that some public park or place in every community be named "Canada Place" or "Canada Square." If all such places already bear names, then one, the designation of which has no special significance, might be re-named in accordance with this suggestion.

Every child enrolled in a public, separate or private school in Canada in this Jubilee year is to receive a medal struck in the Royal Mint at Ottawa, the gift of the National Committee. The presentation of these medals to the pupils offers a splendid opportunity to school district officials to plan a little ceremony at which a short talk on what Confederation has meant and has achieved for Canada could be given, and the boys and girls of today urged to render loyalty and devotion to Canada and dedicate their lives in service to their country.

Like most people living in northern climes, Canadians are not much given to showing their feelings. Their patriotism is something they do not talk about to any extent, and they are seemingly averse to display. But this Diamond Jubilee is one occasion on which the people of Canada may well unbend a little, display their flag with profusion, shout and cheer. It will do them good, and especially should the children be encouraged to regard Dominion Day, 1927, as a red letter day in their young lives, and celebrate it accordingly.

Air Not Yet Conquered

Casualties in Long Flights Greater
Than the Successes

Since Lindbergh winged his way through hail and fog and night to Paris, men have begun to talk about flying to Honolulu, to Australia, and to Japan. It is quite possible that, in time, such feats may be accomplished, but to conclude that they are going to be accomplished as a mere matter of course is to fly into the face of experience. Lindbergh, with extraordinary luck as well as skill, got to Paris. But in the meantime Pinedo fell into the ocean near the Azores. Lieutenants Carr and Gillman, flying from England to India, fell into the Persian Gulf. And Nungesser and Goll flying across the Atlantic disappeared.

That is a price in casualties which ought at least to qualify some of the easy optimism about over-the-ocean flights.

Origin of "Vaudeville"

Vaudeville originally meant a light, gay song, but it is now used as meaning a light kind of play introducing a number of songs. The word is derived from Vau-de-Vire, the name of two valleys in Normandy, where, in the fifteenth century, a French poet composed songs that became popular and were called Vaux-de-Vire, after the valleys.

Nine days constituted the reign of one English queen. She was Lady Jane Grey, grandniece of Henry VIII., and was executed on a scaffold in the Tower of London in 1554.

Wins Prize in England

Tobacco From Canadian Farms
Awarded Medal for "Outstanding
Excellence"

Canadian tobacco has been awarded a silver medal for the "outstanding excellence" of leaf tobacco shown at the International Tobacco exhibition held at Olympia, London, in May, according to an announcement made by the Department of Agriculture.

The Canadian exhibit was prepared by the Tobacco Division of the Central Experimental Farm, Ottawa, in competition with South Africa, Colombia, Italy, Greece and Macedonia. Canadian tobacco exports trebled in 1926 and the value of the leaf sent to Great Britain alone totalled over \$2,000,000.

2 Years' Backache Subdued by "Nerviline"

"Backache was the bane of my life, and for two years I was so lame as to be unfit for work," writes E. S. Sloane, from Georgetown. "While in Smith Bros' Drug Store, I heard of Nerviline being a wonderful pain-destroyer, so I decided to try Nerviline. Thanks to Nerviline, my two-years' backache was rubbed away, and today I am perfectly well."

All those who suffer from weak, aching backs, those whose muscles are stiff, whose joints are swollen, let them try Nerviline—the liniment that never fails. 35c. at all dealers.

Agreement Has Expired

Railway Assisted Many Alberta Farm-
ers to Move From Dry Area

Free movement of farmers and their effects from the drier areas in southeastern Alberta to new locations elsewhere in the province stopped at the end of May when the agreement between the government and the railways expired. During the past season to the end of April a total of 568 families with 985 cars of stock and effects have been removed under this arrangement. The majority of settlers thus changing their locations have gone to the farming country along the foothills from the Lethbridge district to as far north as Grande Prairie.

WOMEN WHO ARE WEAK

Gain New Vitality by Building
Up the Blood

There are many women who pass their days in a constant state of weariness. They have barely sufficient energy to enable them to perform their manifold duties. Often they have an aching head, a miserable pain in the back, and limbs that feel as heavy as lead. The whole trouble is due to bloodlessness. No woman need suffer in this way. It is easy to obtain a supply of rich red blood by taking Dr. Williams' Pink Pills. The new blood created by these pills rapidly builds up the system; headaches and backaches disappear, energy returns and the joy of living is felt once more.

Proof of these statements is given by Mrs. Ed. Lanore, Stoney Point, Ont., who says:—"For a long time I had been in a very miserable condition, always feeling tired out, sleepy and weak. The least work about the house would leave me helplessly tired and nothing that I did seemed to give relief. Believing that a rest might do me good, we moved to town, but, contrary to expectations, instead of getting better I was growing steadily weaker. One day while talking to a neighbor, she urged my taking Dr. Williams' Pink Pills, telling me that her daughter had been in a condition much like mine. This persuaded me to try this medicine, and I have much reason to be grateful that I followed her advice. After the use of a few boxes of the pills, there could be no doubt that they were helping me, and as I continued their use my health and strength came back and now I am doing all my own work and feeling in the best of health. For this splendid condition I must give my thanks to Dr. Williams' Pink Pills."

The pills are sold by all druggists, or you can get them by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A common Italian salutation in the morning is, "God give you a good day."

CAMPERS!

Take Minard's in your kit.
Good for cuts, sprains, burns,
and insect bites.

Campers—Take Minard's with you.

Cuticura Preparations

Unexcelled in purity, they are regarded by millions as unrivalled in the promotion of skin and hair health. The purifying, antiseptic, pore-cleansing properties of Cuticura Soap invigorate and preserve the skin; the Ointment soothes and heals rashes and irritations. The freely-lathering Shaving Stick causes no irritation, but leaves the skin fresh and smooth. The Talcum is fragrant and refreshing.

Sample Each Free by Mail. Address Canadian Depot: "Stanhope," Ltd., Montreal. Price, Soap 25c, Ointment 25c and 50c, Talcum 25c. Cuticura Shaving Stick 25c.

Many Prizes For Aviators

More Than \$100,000 Offered for Five
Long Air Races

With prizes totalling more than \$100,000 offered for long distance flights over continent and ocean adventurous aviators may now choose from at least five events of the kind during the next few months.

To date, the prize offers and proposed flights are:

\$35,000 offered by James Doyle, of Honolulu, for a non-stop flight from the Pacific Coast to Honolulu — \$25,000 for the first and \$10,000 for the second aviator to make the hop.

\$25,000 offered by William K. Eastwood, Dallas, Texas capitalist, for the first to fly from Dallas to Hong Kong, 10,000 miles.

\$35,000 offered by the business men of Spokane, Wash. for a series of races between New York and Spokane. This race is sponsored by the National Aeronautic Association.

\$30,000 by Sid Grauman, Hollywood, Calif., for the first to fly from Los Angeles to Tokio, 5,000 miles.

\$5,500 by Spokane interests for a race from San Francisco to Spokane.

Fish By-Products

Map Showing Location of Plants in
B.C. Has Been Issued

The Natural Resources Intelligence Service, in co-operation with the Department of Marine and Fisheries, has issued a map showing the location of all the Fish By-Product reduction plants now installed in British Columbia with the names of the operating firms.

The chief fishing areas are also clearly defined and it can be seen at a glance in which of these there are many, few or no reduction plants, and where there appears to be room for further enterprise in this line.

At the present time there are 28 plants in operation, which produce oil, meal and fertilizer from salmon, halibut and other offal, pichards, herring, dogfish and whales.

The Canadian National Railways are erecting oil tanks of 300,000 gallon capacity, and the Canadian Pacific Railway is fitting a coast-wide steamer with a 170,000 gallon tank. There is a large demand for these fish by-products, which can be shipped direct from British Columbian ports to Europe and Asia.

A Remarkable Picture

Canvas 138 Feet Long Depicts
Coronation Procession of 1911

A remarkable picture, 138 feet long, has been painted by a prominent artist in the Queen's Dolls' House Room, at Windsor Castle. It depicts the Coronation Procession of 1911. Over 300 horses and 2,000 men are seen in the drawing, which is to the same scale as the Dolls' House. Beginning at the door of the room the painting shows the fine white horse which headed the procession, followed by detachments of troops, the Royal Coach drawn by the eight famous creams, the distinguished guests and the remainder of the Sovereigns' escort.

Air Mail Problem

The experimental work in connection with the post office department's air mail programme will likely be delayed until the early fall, according to latest advices. It has been decided not to call for tenders for any definite air-mail routes at the present time. But late this summer the Royal Canadian Air Force will undertake some experimental work in the Gulf of St. Lawrence and will carry on into the winter months. The intention is to secure accurate information respecting flying conditions before any contracts are entered into with private concerns.

We might enjoy work more if we did not have to do it.

A Country of Centenarians

Spain Has Large Number of Persons
Over Hundred Years Old

Spain is the land of centenarians. The latest official census states that 354 persons (ninety-six men and 258 women) have reached the age 100; seventy-five men and 204 women are more than 100 years old, and a number have reached 110 years.

There are 22,150 men and 36,294 women more than eighty years old.

It will be seen that women are longer lived than men. Even Madrid, which has the reputation of being unhealthy, has twenty-four women and eleven men who are more than 100 years old.

Miller's Worm Powders are complete in themselves. They not only drive worms from the system, but repair the damage that worms cause and so invigorate the constitution that it speedily recovers from the disorders of the digestion that are the result of the work of these parasitic intruders. They do their work thoroughly and strength and soundness follow their use.

New Coins For Free State

Design Proposed Tells Modern Ire-
lands Story in Sequence

Almost the entire barnyard is represented in the obverses proposed for the new coins for the Irish Free State. The battle over designs for the new coinage has been won by the protagonists of emblems illustrating Erin's prestige as a horse-breeding and agricultural country.

The designs submitted include the horse, the bull, the fish and other Irish products, a series of eight designs, telling modern Ireland's story in sequence. It is highly probable that the reverse will display the harp, the national emblem. The issue is expected before Christmas.

No Rest With Asthma. Asthma usually attacks at night, the one time when rest is needed most. Hence the loss of strength, the nervous debility, the loss of flesh and other evils which must be expected unless relief is secured. Fortunately relief is possible. Dr. J. D. Kellogg's Asthma Remedy has proved its merits through years of service. A trial will surely convince you.

Too Undignified for City

Mexico's beast of burden, the burro, has been barred from the streets of Mexico City. The patient, picturesque little animals, which for centuries have packed cargoes of country produce to the metropolis, now interfere with motor traffic, and, according to an official order just issued, give an "undignified aspect to a civilized city."

For Sprains and Bruises. — There is nothing better for sprains and contusions than Dr. Thomas' Electric Oil. It will reduce the swelling that follows a sprain will cool the inflamed flesh and draw the pain. It will take the ache out of a bruise by counteracting the inflammation. A trial will convince any who doubt its power.

The annual loss of timber at present suffered by Canada's forests through the agencies of fire, insects, and disease is greater than the amount annually used for all industrial purposes.

UNIVERSITY OF MANITOBA WINNIPEG

Offers, among others, the following Courses:

Through its FACULTY OF ARTS AND SCIENCE courses leading to the degrees of B.A. and M.A.; and B.Sc., including B.Sc. (Phar.) and M.Sc. Through its FACULTY OF ENGINEERING AND ARCHITECTURE courses leading to the degrees of B.Sc. (C.E.), B.Sc. (M.E.), M.Sc., and B.Arch. Through its FACULTY OF MEDICINE courses leading to the degrees of M.D. and D.M. Through its FACULTY OF AGRICULTURE AND HOME ECONOMICS courses leading to the degrees of B.S.A. and B.Sc. (H.E.). Through MANITOBA LAW SCHOOL, an affiliated institution, a course leading to the degree of LL.B. For terms of admission, details of courses and other information, apply to

W. J. SPENCE, Registrar,
University of Manitoba, Winnipeg

WILL CONTINUE NEGOTIATIONS ON BORDER RULING

Washington.—Ample protection to all Canadians whatever their birthplace who have been in the habit of commuting across the international border to daily employment is asked of the United States in a note from the Canadian Government. The note is in reply to a recent note from the United States on border immigration regulations.

Hon. Vincent Massey, Canadian minister, delivered the note to Frank B. Kellogg, Secretary of State. Comment from the state department will be withheld until officials have considered the Canadian communication more fully.

The note approves the offer of Mr. Kellogg to continue negotiations on border immigration and expressed the hope that a satisfactory settlement will be reached but regrets that the United States Government did not see its way clear to amend the border ruling on April 1, which went into effect June 1 and which gives non-active Canadians six months in which to secure entry as immigrants under the quota law.

It points out that there is no precedent for the application of the term "immigrant" to citizens legally domiciled in another country and retaining their citizenship in that country.

The Jay Treaty of 1794 is quoted to illustrate the broad principle of free border intercourse "to promote a disposition favorable to friendship and good neighborhood," and the note points out that the laws of Canada make no distinction between its citizens on the strength of birth place any more than do the laws of the United States distinguish between native and naturalized citizens.

Socialist Mayor Ignored

No Invitation for Plymouth's Chief Magistrate When Prince Visits Town

London.—The Prince of Wales has arranged to make a tour of Cornwall and Devonshire for several days, and in connection therewith some resentment is felt because those in charge of the Royal Western Yacht Club's proposed dance in Plymouth, Devonshire, have not invited Mayor J. J. Hamlyn Moses, Plymouth's first Socialist chief magistrate, to the dance. The town clerk and other members of the Plymouth council have been invited.

"I am too big to mind, personally," Mayor Moses said, "but it is the town that matters. It is regrettable that any such spirit of snobishness should be allowed to creep in and injure a function like this."

Arrested on Serious Charge

D'Autremont Brothers Are Taken Into Custody in Ohio

Stuebenville, Ohio.—Ray and Roy D'Autremont, wanted in Oregon for the killing of a postal clerk and three trainmen in a passenger train hold-up four years ago, were arrested by federal agents and local police.

The twin brothers, for whom a world-wide search has been conducted, were working in a steel mill here. Both admitted their identity when confronted by officers.

The brothers are accused of dynamiting a passenger train in a mail hold-up at Siskiyou, Oregon, in 1923.

New Pacific Cable

Victoria.—The freighter Drehtdyk has commenced to unload 70 miles of cable which will form the last link in the new cable that connects up Canada with Australia and New Zealand. The line when completed will double the capacity of the cable business between the units of the British Empire.

A Long Auto Trip

Los Angeles, Calif.—A 6,700 mile trip in an automobile from the Pacific coast to New York city and back in seven days was completed here by Louis D. Miller, San Francisco business man, who claimed a new record for continuous motor travel and for elapsed time in the trans-continental tour.

Bay Ports Inquiry

Some Misapprehension Felt in West Over Investigation

Ottawa.—Carrying out the Hudson's Bay Railway project is being accomplished with some difficulty although it will be done. There is no doubt about that.

For years in the East, the scheme has been opposed, one leading paper referring to it persistently as a "fantastic mirage." Parliament, until this session, was either antagonistic or apathetic but Hon. C. A. Dunning then succeeded in getting through, with comparative ease, the appropriation that commits the Government to the completion of the line.

Now, when matters have been pretty well squared away in the East, criticism comes from parts of the West because the merits of Churchill as well as Nelson are to be looked into.

As has been pointed out, the decision to investigate Churchill does not portend its selection as the terminal. As a matter of fact, it is learned that the proposal of inquiring into Churchill came from the British expert, Frederick Palmer. He urged that to be complete his report should cover both places and that in any event, his remuneration would be the same. That, really, is all there is to it. Heretofore, Nelson alone has been considered. Now, Churchill also will be looked over and detailed data secured as to both locations. The wider inquiry, however, does not indicate the choice of Churchill but at the same time it will not exclude it as a possibility if it be found that its advantages exceed those of Port Nelson.

Plan Confederation Memorial

Victoria Club Members Will Launch Campaign Shortly

Victoria, B.C.—Erection of a temporary memorial to commemorate the achievements of the fathers of confederation will be the contribution of the Victoria Klansmen's Club to the diamond jubilee of confederation celebration here next month. The Victoria club will shortly launch a campaign to have erected in the capital city in each Canadian province a permanent memorial to the Fathers of Confederation to be built by the provincial governments with the assistance of the Federal Government.

Want Funds for Relief Work

Vancouver.—Relief of cases of distress among war veterans and their families is the purpose to which the organized ex-service men of British Columbia wish the \$250,000 canteen fund allotment for this province to be put which a conference here of representatives of the Canadian Legion, the Army and Navy Veteran's Association adopted.

Bisley Team Has Sailed

Montreal.—The Canadian Bisley team sailed on the S.S. Ausonia from Montreal on June 10. The team will be in command of Brig-General J. Duff Stuart, of Vancouver, with Major Thomas McManus, Belleville, Ont., as adjutant. In addition to the regular team there will be present a team of cadets from the Hamilton Collegiate Institute, who are also going to Bisley to take part in the prize meet.

Want Peace Treaty

Washington.—An informal inquiry as to the willingness of the Washington Government to begin negotiations for a treaty of perpetual peace between France and the United States has been placed before the state department by Foreign Minister Briand. The inquiry is in the hands of Secretary Kellogg, who is expected to answer it within a week.

May Have Crossed Ocean

Montreal.—A carrier pigeon with a ring attached to its leg with the inscription "Lille, France," was captured by J. B. Martin, a farmer of St. Constant, about 25 miles from Montreal. The bird was practically exhausted when caught and is now being taken care of by the farmer until it is claimed, if ever, by its owner.

Sending Delegation to Germany

London.—The British Legion of the Empire Service League has decided to send a delegation to the International conference of ex-service men at Luxembourg in July. German ex-service men will also attend.

ASSASSINATION OF SOVIET ENVOY TO BE PROBED

Warsaw.—The Polish authorities have taken drastic steps to determine whether the assassination of Peter Volkoff, Soviet envoy at Warsaw, was part of a Russian Monarchist plot. Volkoff's assassin was a young Russian student studying at Vilna. The Polish police conducted searches and made arrests among the Monarchist colonies in both Warsaw and Vilna, five arrests at the capital and 29 at Vilna.

The Russian newspaper Vilna Novaya Rossia, which issued a special edition recommending subscriptions for the murderer, was promptly suppressed and the editor arrested.

The Polish Government is doing everything possible, it is announced, to fulfill the requirements of justice, and has acceded to the Soviet demand for participation in the investigation, the Polish law permitting such a course.

M. Litvinoff's sharp note has made a painful impression in Polish governmental circles, which deplore the tragedy and regard it as an internal Russian affair which accidentally happened in Poland, for which Poland has no moral responsibility. It is believed the Soviet Union will be satisfied with nothing less than the death penalty of the assassin, but it is not expected the tragedy will seriously impair relations between the two countries.

Plea For Tolerance

Hon. Peter Heenan Criticizes Those Who Sow Seeds of Discord

Ottawa.—Hon. Peter Heenan, Minister of Labor, would have a message of tolerance and co-operation broadcast throughout the Dominions as Canada's jubilee confederation message, he told the members of a local service club.

He was severely critical of those who sowed seeds of discord and discontent in religious or social matters. Referring to the cry of Communists that labor was ill-treated in this country, the speaker said more had been done in behalf of the workers within the past ten years than in the previous half century.

Western Graduates

Toronto.—The Senate of the University of Toronto has announced the award of fellowships in the school of graduate studies for the session of 1927-28, including the following westerners: Mackenzie Fellowships—J. R. A. Pollard, Saskatchewan, department of history.

Special open fellowships—J. Caspar, Alberta, department of classics; D. E. Calvert, British Columbia, department of English; L. S. Russell, Alberta, department of geology.

Premier Brownlee Going to England

Will Inquire Into Establishment of Agency in London

Edmonton, Alta.—Premier Brownlee expects to leave on a trip to England towards the end of this month. He has been considering the possibility of such a trip for some time past. It will be only in part a holiday event, however, for he has a full program of things that he proposes doing over there for and in behalf of the Province of Alberta.

A first hand check-up on the immigration work now being carried on by Hon. Herbert Greenfield and an inquiry into the possibilities of a general agency office in London will be one of the main purposes of the trip. The Premier will discuss the situation with various interested parties and organizations, and will see for himself what is the feeling in England towards closer relations with Alberta. In view of the improved position of the province he will also sound out the attitude of British industry and capital in the same direction, particularly in the hope of interesting further investment in the western Canadian field.

Another item on the premier's program will be an inquiry into the question of marketing Alberta products in England. In this respect he will be working in line with the Saskatchewan Government, which has already sent a commission to the motherland to investigate the conditions and prospects of the livestock and bacon trade, while Manitoba also is considering a similar step. So far as Alberta is concerned the inquiry in addition will bear largely on wheat marketing, about which Mr. Brownlee will ask a lot of questions during the trip. The Premier is now making arrangements to get away and hopes to sail some time in the last week of June.

Appointed By Lincoln

Aged Resident of St. Cloud, Minn., Was Real Pioneer

St. Cloud, Minn.—Charles A. Gilman, 94 years old, former lieutenant-governor of Minnesota, and one of the few pioneers of the northwest, who received appointment to public office from Abraham Lincoln, died here recently from old age. Mr. Gilman, who had resided here for 72 years, was appointed receiver of the United States land office in 1861 by President Lincoln, and was re-appointed in 1866 by President Andrew Johnson. He served as lieutenant-governor from 1881 to 1885. Four daughters and a son survive.

Will Be Settled at Geneva

Belgrade.—It has been announced that Jugo-Slavia is willing to thresh out the Albanian difficulty through the League of Nations and there is nothing to indicate undue excitement or a basis for rumors spread abroad of martial law in Belgrade.

NAME DELEGATES FOR BRITAIN TO NAVAL PARLEY

Washington.—Names of delegates who will represent Great Britain and her Dominions at the Geneva three-power naval limitations conference have been submitted to the state department by the British embassy and the Canadian and Irish legations. Viscount Cecil, who for years has represented Great Britain in disarmament conferences in Europe, will head the delegation, assisted by W. C. Bridgeman, First Lord of the Admiralty, who will also represent India, and Vice-Admiral Sir S. L. Field, deputy chief of the naval staff.

Canada will be represented by Hon. Ernest Lapointe, the Minister of Justice. In the event that he fails to arrive in Geneva by June 20, the opening date of the conference, Canada will be represented by her permanent agent there, Dr. W. W. Riddell.

J. S. Smith, high commissioner for the Union of South Africa in London, and C. Pienar, trade commissioner for Europe will speak for the Union, while Sir J. Cook, High Commissioner in London, will represent Australia.

New Zealand will be represented by J. Parr, London High Commissioner, and Earl Jellicoe, Admiral of the Fleet. For the Irish Free State, Desmond Fitzgerald, Minister for External Affairs, and John Costello, Attorney General, will be present.

Abandons Quest in Arctic

Wilkins Believes Further Flights This Summer Would Be Foolhardy

Fairbanks, Alaska.—For this year at least Captain George H. Wilkins has abandoned his attempt to wrest from the uncharted Arctic the mystery of its "blind spot." With the coming of the fogs which hang low over the Arctic Ocean in the summer, Captain Wilkins believes that further flights North of Alaska this summer would be foolhardy. Returning to Fairbanks from Point Barrow, the Northern base of the expedition, the Australian explorer and the other members of his party left for the United States.

The explorer has made three flights North of Alaska in an effort to prove or disprove the theory that there are islands between Point Barrow and the North Pole.

The second air voyage into the Arctic was made two months ago and nearly ended in disaster when the plane was forced down with engine trouble on the ice pack.

Wilkins and Ben Ellison, Alaskan pilot, walked 80 miles over the ice to land.

Starting from Point Barrow, Wilkins and Alger Graham, Detroit pilot, essayed the third flight June 4. They flew 200 miles toward Greenland but were forced by dense fogs to return.

New Mining Company for B.C.

Victoria.—With \$10,000,000 cash, C. C. Julian, noted California oil operator, formally entered into the British Columbia business and development field on a large scale. The formal part was completed at the Parliament buildings when Julian was granted incorporation papers under B.C. laws to operate in this province under the name of the New Monte Cristo Mining Co., with a capital of \$10,000,000.

Spent Weeks in Peruvian Wilds

Toronto.—After weeks of terror in the Peruvian wilderness, Robert Hirs, electrical engineer who was first reported missing and then dead in the wilds of interior South America, has returned safely to his home town, Toronto. Circumstances compelled him to live two weeks with a tribe of Inca Indians in the jungle, a delay which occasioned alarm as to his safety.

Amundsen Sails for Orient

Vancouver.—Captain Roald Amundsen, world renowned explorer and the only man in the world to have reached the two poles, is a passenger on the Empress of Asia, leaving on her 70th voyage west to the Orient. Captain Amundsen, who flew over the North Pole and also reached the Pole on his famous expedition, is booked for Yokohama.

Thousand Square Miles of Blossoms

Nova Scotia's festival time is fast approaching, when a thousand square miles of one of the world-famous apple growing valleys will be smothered in bloom. One of the significant days in this province is "Bloom Sunday," when people go by thousands to the Annapolis Valley to look upon the white and pink tabernacles of fragrant blossoms. The journey over the Dominion and Atlantic Railway at this time of year affords a trip long to be remembered, as the line passes through the very heart of the apple

country. They cover more than 1,000 square miles of the province.

Two million barrels of apples were produced in Nova Scotia last year and some idea of the even greater future for this industry can be gathered from the fact that only about one-third of the land suitable for orchards is under cultivation at the present time. It is the nearest apple valley to the foreign markets and this industry constitutes one of the leading sources of wealth for the Province of Nova Scotia.

Church Announcements EVANGELICAL NOTES.

Large congregations attended the Annual Children's Day Services last Sunday. Especially in the evening the gallery was well occupied as well as the main auditorium. The program in the evening was well rendered and proved to be of unusual variety and interest to most everyone, young and old. The missionary note rang high throughout. Of course the children had first place in song and speech but the Church Choir and the Sunday School orchestra assisted very generously and pleasingly. The presence of five or six canary birds was a feature of very special interest to children. It is almost unbelievable how these songsters seemed to rejoice and join in the spirit of the occasion, adding their warbling song and glad refrain again and again.

The evening offering alone which goes to foreign Mission amounted to \$43.00. As a Children's Day collection, not including extra gifts, this is the best yet.

Conference talk is the order of the day among the Evangelical folks of this town and community and many others too. We hear of a number of folks who are planning to take the Conference dates "off" from their regular work as their holidays. Good idea.

In honor of our American guests at conference, the bishops and other general officers from across the line, the local pastor and church officials here are planning a rare treat by way of a outing to Banff on Monday after the conference. A twenty passenger auto bus has been engaged from the Calgary Banff Brewster Taxi Co. for the trip. It will be a round trip leaving here early in the morning and back in the evening of the same day.

KNOX and WESCOTT

Westcott and Didsbury

We are fortunate in having Mr. Gordon Lapp with us this Sunday. Mr. Lapp is Provincial Secretary of the Alberta Boys' Work Board. Trail Rangers and C.G.I.T. girls should be sure not to miss the evening service.

June 19th is U.F.A. Sunday and all members of the organization are asked to join in the services.

Lone Pine Hall: Mr. Lapp is to conduct the services. It is U.F.A. Sunday and those living near Community Hall are requested to join with Lone Pine on this occasion.

LUTHERAN CHURCH

Westcott 10.30 a.m. Garmar.

"Ho, every one that thirsteth, come ye to the waters, and he that has no money; come ye, buy and eat; yea, come, buy wine and milk without money and without price." Thus God graciously appeals to sinners to accept the forgiveness so freely offered in Christ. In the address on Sunday this appeal will be presented.

According to information received fourteen new candidates are to enter the field of Home Missions in Alberta and B.C. this summer.

The local district synodical convention will be held at Stony Plain from July 13th to July 19th. Dr. F. Pieper of St. Louis will be the essayist.

DICK BROWN, manager

is given as to the nature of the discovery, but "an early announcement may be expected," according to Doctor Tory.

The laboratories of the Department of Agriculture, in Winnipeg, and of the prairie Universities are co-operating closely in the investigation, it is stated. This much information has been given out as a result of the meeting of the National Research Council at Ottawa.

The council's committee on grain research is to undertake a study of the effect of moisture made at Ottawa by Dr. H. M. Tory, chairman of the National Research Council. No indication

and various methods of drying upon the value of wheat for milling purposes. At several places in the west fields are being prepared for this investigation and portions of the crop will be left in the fields for extended periods to determine the exact results of different weather conditions. An effort is to be made to solve this problem in the shortest possible time.

Wanted.

Several cars of good sound horses, five to nine years old, from 1300 lbs. up.
